Baby Week April 24-30

CHARTS AND BOOTHS OF STRIKING INTEREST WILL BE BIG FEATURES

Committees Have Been at Work for Weeks Getting up Statistics and Data

Charts and booths of striking interest and value will emphasize various features of Baby Week at the Palama Settlement headquarters next week. The booths for the various exhibits are nearly completed. They are constructed of a framework of light lumber, and are partitioned off with a screen, that makes them light, airy and hygienic. The reception committee of the executive committee is making its final tour of inspection today, and everything is being got ready for this inspection. This also will ensure that nothing will be lacking when the exhibits are thrown open to the public on Monday. With the various exhibits before them the members of the reception committee will thoroughly inform themselves as to answer intelligently all questions put to them next week, and to explain thoroughly all the charts and maps prepared.

Instructive charts and mechanical contrivances have been generously loaned by the board of health and the Anti-Tuberculosis Society. In all the exhibits the idea of confining the exhibits to child welfare for children under six has been adhered to.

A unique set of charts and cartoon has been prepared by Mrs. W. C. Hobbs and Mrs. A. G. Hodgins. W. Humphries and Miss A. S. Dray of the tenements and cottages division will demonstrate the contrasts between the two modes of residence with graphic effect. Numerous photographs and plans have been mounted for the information of the public.

Infant Mortality Shown.

Perhaps the most striking single exhibit of all will be that of the two

ups showing in vivid contrast by means of colored pins the location of 1 births during the past year, and 1 deaths of babies under one year of age for the same period. Infant mortality by the various nationalities will also be shown. These statistics are the hands of a very able committee consisting of Mrs. Paul Withington and Mrs. Riley H. Allen, Miss Christine Kemp and James A. Rath, head of the Palama Settlement.

The letter which was published last week in the Star-Bulletin, has been approved by Superintendent Kinney of the public schools. This letter was prepared by the executive committee. His reply to Kinney says: "I am having a sufficient number of copies of your letter reproduced to be distributed to the teachers of the grades concerned. They will be instructed to have the information disseminated to the children."

Just now the committee is striving to complete its list of three prizes for the three highest scores in the "healthiest baby" contest. Already one of these prizes has been contributed. The committee feels that a number of such prize contests will stimulate the interest of the general public and will thus insure the greater amount of good being accomplished by the campaign.

Toward the \$400 expense fund a Japanese night school sent 06.65 with its remark: "Better babies--better citizens." Here is good seed for the citizenship educational work that is being promoted in Honolulu.

Among the contributors to date are, Mr. and Mrs. F. E. Steers, a friend, Mr. and Mrs. G. P. Castle, Mr. and Mrs. W. F. Frear, Mr. and Mrs. J. R. Galt, Mr. K. Uchida, Mrs. Walter F. Dillingham, Mrs. F. Swanzy, Mrs. H. M. von Holt, and the Chinese consul, Hon. Tze-ang Woonhuan.

Palama Denotes "Safety First" To All Mothers

Institution Where "Baby Week" Will Be Held Worthy of Investigation

(By O. W. R.)

"Safety First" has become a nationwide slogan, and in Honolulu's tenement districts the two words invariably apply to the Palama Settlement. It is simple to understand. Palama Settlement is the "Safety First" of the tenement mothers.

So when Willie Kamaka bruises his big toe; or when Lizzie Wong Ho sprains her wrist; or when Fuji Hamamoto cries with a toothache or, perhaps, when some youngster gets tuberculosis in its early stages, the mothers--or fathers--hustle their children to the Palama Settlement for treatment, gratis.

And the same applies to babies. They get just as much care and attention from the settlement as the older children.

Thus is every week a "Baby Week" at the Palama Settlement. Every week is "Child Welfare Week" with the institution. For nearly 10 years the settlement nurses have labored until today the settlement employs 10 trained district nurses and operates seven fully equipped dispensaries in various parts of Honolulu.

Free clinics, free dental work, free medical treatment, free examination, free milk, free advice--these are everyday features at the various branches of the settlement. The mothers and fathers of the tenement districts have come to look upon the settlement as one of life's necessities, and their demands upon it are ample.

Thus does "Safety First" suggest "Palama Settlement."

Honolulu's first annual "Baby Week" is to be held at the settlement next week, and townfolk and tourists interested in this phase of social welfare work will have an opportunity to gain an insight into the vast undertaking which the settlement has assumed. A visit to the settlement alone is worth while; a visit to the dispensaries even more so.

DAUGHTERS OF HAWAII TO MEET THURSDAY

Hanalei-kamalama, Queen Emma park, will be the scene of the annual social meeting of the Daughters of Hawaii Thursday afternoon at 4 o'clock. This is the first meeting of the organization to be held in the Nuuanu avenue park. An earnest effort is being made by the officers of the "Daughters" to gather a new lot of articles for the museum in the park to be donated on the annual meeting day.

A tribute to the memory of Mrs. Sarah Cran Waters, who died March 29, was read at the last meeting of the society by Miss Anna M. Paris.

KALIHI-KAI STUDENTS WILL GIVE PROGRAM

For the purpose of raising money to purchase additional playground equipment and books, the children of the Kalihi-kai public school will give an entertainment next Friday evening, April 28, at the Kalihi church. The students are giving the program themselves and 50¢ tickets have been issued for the affair.

Flight Lieutenant Tennant, son of H. S. Tennant, British Under Secretary of war, has received the Distinguished Service Order for Bravery.

BOY SCOUTS TO BE ON DUTY AT HEADQUARTERS

Once more the Boy Scouts of Honolulu are to have a chance to demonstrate their efficiency and helpfulness as a number of the alert boys in khaki will be on duty each afternoon and evening at the Baby Week headquarters, Palama Settlement. Different troops have been detailed for different hours. They will act as guides, help to carry babies for weary mothers, escort people to and from the cars, announce the hours for the lectures, announce the time of the departures of the special cars, and in every way make themselves generally useful in their scout habit: "Do a good turn daily."

When in doubt, ask a scout, is the motto for the week.

The assignment of troops is as follows:

Monday, April 24--Honolulu 5th, H. S. Hayward, scoutmaster.
Tuesday, April 25--Honolulu 1st, Geo. C. Potter, scoutmaster.
Wednesday, April 26--Honolulu 14th, M. G. Santos, scoutmaster.
Thursday, April 27--Honolulu 9th, L. G. Haenen, scoutmaster.
Friday, April 28--Honolulu 4th, W. H. Hutton, scoutmaster.
Saturday morning--Honolulu 8th, Wm. A. Bryan, scoutmaster.
Saturday afternoon--Honolulu 6th, Rolla K. Thomas, scoutmaster.
Saturday evening--Honolulu 2nd, Robert Anderson, scoutmaster.

Hours for Troops.

The hours for the troops on week days up until Saturday are from two to five p. m. and from seven to nine p. m. The Saturday morning troops will be on duty from seven-thirty, a. m. until noon. The afternoon troop will have from one to five p. m. and the evening troop from seven to nine.

In close fellowship with the Boy Scouts will be members of the E and A Club of Palama Settlement, consisting mostly of high school boys.

LITERATURE ON BABIES IS READY

An integral part of any big show such as that of Baby Week at Palama Settlement is its literature. At one end of the room of exhibits will be a table for literature to be distributed to visitors by the ladies in charge. Some of the "Baby Books" of the Hawaiian Trust Company will be included in the distribution. Dr. E. S. Goodhue has included some of his own pamphlets to be given away. A large quantity of "Save the Baby" booklets issued by the American Medical Association in very attractive form will be given out. And a quantity of slips containing terse bits of advice to mothers, such as were used by the Cambridge, Mass., committee of baby week, have been contributed. Much attention is being given to the little pamphlet prepared by the College Club in charge of the exhibit on feeding and cleaning the baby, entitled "The Baby." It will be a resume of the demonstrations given in all the booths during the week, and will be printed in English, Hawaiian, Japanese, Chinese and Portuguese languages.
